Franklin Cummings Tech

Computer Information Technology

Program Details

Certificate in Network & Systems Support — **Duration:** 8 Months
Certificate in Software Development — **Duration:** 8 Months

Associate Degree in Computer Info Technology — **Duration:** 2 Years
- Cybersecurity concentration
- Network & Systems Support concentration
- Software Development concentration

Overview

Demand for trained IT professionals is outstripping supply because of increased reliance on cloud computing, technology advancement in AI, the surge in work-from-home technology and online services, and growing concerns about information security. With online and evening classes, our flexible Computer Information Technology program can prepare you for a great career that fits your interests and your schedule.

What a "Stackable" Pathway Might Look Like

Certificates prepare you for immediate entry into the workforce. You can later apply (or "stack") the college credits you've earned toward a related degree program. One possible pathway:

1. Complete our 8-month Certificate in Software Development

2. Apply the college credits from your certificate toward our Associate Degree in Computer Information Technology

Career Paths

- Software Developer
- Info Security Specialist
- Network Support Specialist
- Cybersecurity Analyst
- Database Administrator
- IT Support Specialist
- Software Quality Assurance Specialist
- Network System Administrator

Job Outlook

The Computer Information Technology field in Massachusetts offers countless career options and median salaries that are more than double the median for all occupations. Employment in this field is expected to grow 11 percent and the industry will add more than a half-million jobs through 2029. (Source: US Bureau of Labor Statistics).

Franklin Cummings Tech

Here at Franklin Cummings Tech, we prepare our students to meet the ever-evolving needs of the future. Our programs offer students the opportunity to learn beyond textbooks, **make the world better for the next generation**, and experience lifelong career success.

Top Reasons to Choose Franklin Cummings Tech

1 Career-Focused

Our programs prepare you for the future. We help you find careers in high-demand fields, in roles where you will be paid well and can support your family. In fact, most of our programs boast **80-90%** job placement rates. Our partnerships with industry leaders and job fairs lead to real-world experience and careers for our graduates.

2 Affordable

Our tuition cost is **less than half** of the average tuition at four-year non-profit colleges or for-profit technical schools in Massachusetts. Here, you can enjoy school and the economic opportunities that come with a degree at a price you can afford. That is why **97% of our students receive financial aid**. Your future matters, especially to us.

3 Flexible

We offer day and evening classes to meet your schedule. Some programs take less than a year to prepare you for **immediate entry** into the workforce. When you're ready to continue your education, you can apply (or "stack") your 1-year certificate credits toward an associate or bachelor's degree. This flexibility helps you find a great job, quickly.

4 Supportive

We offer small classes—with no big lecture halls—allowing you to receive the individualized attention you need to thrive. Success coaches provide you personalized support every step of the way, which is why most Franklin Cummings students finish on time.
