

Automotive Technology

Program Details

Certificate in Automotive Technology

Duration: 12 months

Associate Degree in:

- Automotive Technology **Duration:** 2 years
- Electric Vehicle Technology concentration **Duration:** 2 years

Career focus/Specialization: Auto and Electric Vehicle Technology, EV Charger Technology

Overview

Established in 1908, Franklin Cummings Tech’s Automotive Technology program is the oldest in the nation. Receive training from ASE-certified automotive professors with decades of experience in a full-service working automotive repair center, using state-of-the-art equipment. Learn how to diagnose and repair all makes and models — including hybrid and electric. Our flexible program allows you to study during the day or in the evening, in one year or two. Take part in the year-long co-op program and work for pay at a top employer full-time in the summer and part-time in your second year as you earn your degree. The co-op includes a starting wage of at least \$20/hour and on-the-job coaching to help you thrive in the workplace. The co-op is our fastest path to better careers and higher salaries.

What You Will Learn

- Brakes & Transmissions
- Emissions & Engine Performance
- Hybrid & Electric Technology
- Engine Repair
- Electrical/Electronics Systems

Career Paths

- Service Advisor
- Certified Electric Vehicle Technician
- Electric Vehicle Repair Technician
- Charging Station Technician
- Automotive Technician
- Internet Sales Coordinator
- Automotive Sales Manager

Job Outlook

Employers increasingly prefer that auto service technicians complete a program at a postsecondary institution. Auto service tech roles in the US are expected to total over 728,000 by 2029. The demand for qualified auto technicians is strong. (Source: US Bureau of Labor Statistics)

AFFORDABLE, FLEXIBLE, ATTAINABLE EDUCATION

Your college education only pays off **if** you graduate and find a great career. Franklin Cummings Tech has the best track record — by a wide margin — among any 2-year college in MA in what comes next.

Top 4 Reasons to Choose Franklin Cummings Tech

1 Career-Focused

Most of our students build careers in high-demand fields, in roles where you will be paid well and can support your family. Many students report that they doubled their income as a result of their education. Also, with our co-ops, you can start working and earning in your field after only nine months of school.

2 Affordable

Our tuition cost is less than half of the average tuition at four-year non-profit colleges or for-profit technical schools in Massachusetts, and we provide over \$5M in additional aid. Here, you can enjoy school and the economic opportunities that come with a degree at a price you can afford.

3 Flexible

We offer day and evening classes to meet your schedule. Some programs take less than a year to prepare you for immediate entry into the workforce. When you're ready to continue your education, you can apply your 1-year certificate credits toward a degree.

4 Supportive

We offer small classes — with no big lecture halls — allowing you to receive the individualized attention you need to thrive. Success coaches provide you personalized support every step of the way, which is why most Franklin Cummings Tech students finish on time.

We are an Affirmative Action/Equal Opportunity institution that does not discriminate on the basis of age, race, religion, color, creed, national or ethnic origin, sex, sexual orientation, handicap, or disability in its education programs, employment, or in admissions to, access to, or treatment in its programs or activities.
