Annual median salary 1 year after graduation (all programs combined)

73%

Students of color

10:1

Student to faculty ratio

50%

Graduation rate (compared to 21% for 2-year MA colleges)

Your education only pays off **if** you graduate and find a great career. Our graduation rate is 2-3 times higher than local community colleges, and 85% of our students find work in their field.

“ The small investment I made in both time and money to come to Franklin Cummings Tech was worth it 100%. It nearly doubled my salary once I graduated. I now work as an estimator for Bond Brothers. I honestly don't know if I would be where I am today without the benefit of going to a school like Franklin Cummings Tech.”

-Dayshon Brandao, '21 HVAC certificate

Affordable, Flexible, Attainable Education

Your college education only pays off if you graduate and find a great career. Franklin Cummings Tech has the best track record — by a wide margin — among any 2-year college in MA in what comes next.

Top 4 Reasons to Choose Franklin Cummings Tech

➤ 1. Career-Focused

Most of our students build careers in high-demand fields, in roles where you will be paid well and can support your family. Many students report that they doubled their income as a result of their education. Also, with our co-ops, you can start working and earning in your field after only nine months of school.

➤ 2. Affordable

Our tuition cost is less than half of the average tuition at four-year non-profit colleges or for-profit technical schools in Massachusetts, and we provide over \$5M in additional aid. Here, you can enjoy school and the economic opportunities that come with a degree at a price you can afford.

➤ 3. Flexible

We offer day and evening classes to meet your schedule. Some programs take less than a year to prepare you for immediate entry into the workforce. When you're ready to continue your education, you can apply your 1-year certificate credits toward a degree.

➤ 4. Supportive

We offer small classes — with no big lecture halls — allowing you to receive the individualized attention you need to thrive. Success coaches provide you personalized support every step of the way, which is why most Franklin Cummings Tech students finish on time.
