Study Renewable Energy for College Credit (and Earn \$250)

Franklin Cummings Tech, a nonprofit college in Boston focused on career success in clean energy, will be offering a free college course this spring in Somerville.

Who: High School students interested in clean energy

What: Using virtual reality software and hands-on activities, students learn about present and future energy needs and the path to an alternative energy economy focused on solar, wind, and geothermal energy.

When: Seven Saturdays from 9am-4pm (with breaks and lunch) each Saturday, from 5/4-6/22 (no class on 5/25)

Where: Somerville Dojo

Why: Earn 3 free, transferable college credits (worth \$2100) and \$250 in spending money
