## RELIGIOUS OR MEDICAL EXEMPTION ONLY:

☐ I apply to be exempted from all vaccination requirements for religious or medical reasons. I understand that I must supply written documentation to support my application, which will be reviewed by the Safety Committee. Medical exemptions must come from the student's doctor and document the reason why an individual cannot medically receive the vaccine. Religious exemptions come from the student (or parent/guardian for those under 18 years), and state in writing that a vaccine conflicts with his/her sincerely held religious belief. Students who are granted an immunization exemption: 1) May be excluded from the campus for up to three months should a Measles case develop in the College.

### Massachusetts General Law: 220.600 Immunization Requirements for College Students

(A) In order to be registered at an institution of higher learning, every full-time undergraduate student must present a physician's certificate that such student has received the following immunizations:

- (1) Two doses of live Measles, Mumps and Rubella vaccine given at least four weeks apart beginning at or after 12 months of age is required;
- (2) One single dose of TDAP administered within the last 10 years;
- (3) Three doses of Hepatitis B Vaccine are required for all students;
- (4) Two doses of Varicella Vaccine given at least four weeks apart beginning at or after 12 months of age is required or history of disease;
- (5) One dose of Meningitis Vaccine within the last ten years.

B) The requirements of 105 CMR 220.600 shall not apply where:

- (1) The student presents laboratory evidence of immunity; a statement signed by a physician, nurse practitioner, physician assistant or designee that the student has a reliable history of disease; or a self-reported history of disease verified by a physician, nurse practitioner, or physician assistant.

(2) The student provides written documentation that he or she meets the standards for medical or religious exemption set forth in M.G.L. c. 76, § 15C;

- (3) 1 dose MenACWY (formerly MCV4) required for all full-time students 21 years of age or younger. The dose of MenACWY vaccine must have been received on or after the student's 16th birthday. Doses received at younger ages do not count towards this requirement. Students may decline MenACWY vaccine after they have read and signed the MDPH Meningococcal Information and Waiver Form provided by their institution.

(C) Whenever possible, such immunizations are to be obtained prior to enrollment or registration. However, students may be enrolled or registered provided that the required immunizations are obtained within 30 days of registration.

# DEPARTMENT OF PUBLIC HEALTH

## 105 CMR 220.000: IMMUNIZATION OF STUDENTS BEFORE ADMISSION TO SCHOOL

### 220.600: Immunization Requirements for Postsecondary Students

- A. No student shall attend a postsecondary institution without a certification of immunization documenting that the student has been successfully immunized in accordance with required Department immunization schedules developed in accordance with the recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention, or any successor committee serving a comparable function.
- B. The following students are subject to the requirements of 105 CMR 220.600(A):
  - a. Full-time undergraduate and graduate students;
  - b. Part-time undergraduate and graduate students in a health science program who may be in contact with patients; and
  - c. Full or part-time student attending a postsecondary institution in Massachusetts while on a student or other visa, including a student attending or visiting classes or programs as part of an academic visitation or exchange program.
- C. Immunizations (See Reverse Side)
- D. The requirements of 105 CMR 220.600 shall not apply where the student meets one of the criteria set forth in 105 CMR 220.500(C);
- E. Whenever possible, such immunizations are to be obtained prior to enrollment or registration. However, students subject to 105 CMR 220.600 may be enrolled or registered provided that the required immunizations are obtained within 30 days of registration and provided, further, that the postsecondary institution has policies and procedures for ascertaining which students have failed to obtain the necessary immunizations within 30 days, and for taking appropriate follow up action to ensure compliance with 105 CMR 220.000.

### 220.700: Meningococcal Vaccine Requirement for Students at Secondary and Postsecondary Schools

- (A) No newly enrolled full-time student attending a secondary school or postsecondary institution may be registered without a certificate of immunization documenting that the student has received the meningococcal vaccine. No student shall begin classes without this certificate, except as provided in 105 CMR 220.700(C).
- (B) Each secondary school and postsecondary institution, at the time of initial enrollment, shall provide each newly enrolled full-time with detailed information on the risks associated with meningococcal disease and the availability and effectiveness of vaccines against the disease, if he or she is 18 years of age or older, or to the student's parents or guardian, if the student is a minor.
- (C) A student may register and begin classes without a certificate of immunization against meningococcal disease in the following situations:
  - a. The student, or the student's parent or guardian if the student is a minor, provides written certification from a physician, nurse practitioner or physician assistant who has personally examined the student that the student's health would be endangered by the immunization;
  - b. The student, or the student's parent or guardian if the student is a minor, states in writing, in the absence of an emergency or disease epidemic, that immunization would violate his or her religious beliefs; or
  - c. The student, or the student's parent or guardian if the student is a minor, signs a waiver approved by the Department stating that the student has received information about the risks and dangers of meningococcal disease, has reviewed the information provided and has elected to decline the vaccine.
- (D) Whenever possible, the student must obtain the required immunization prior to registration. However, a student subject to 105 CMR 220.700 may be registered without a certificate of immunization, provided that the student supplies a certificate of immunization within 30 days of registration and provided, further, that the secondary school or postsecondary institution has policies and procedures for ascertaining which students have failed to provide the required certification within 30 days and for taking appropriate follow up action to ensure compliance with 105 CMR 220.700.
