

Construction Management

Program Details

Associate Degree in Construction Management

Duration: 2 Years

Career focus: Industrial and green building practices

Overview

Massive federal investment in infrastructure improvements is expected to fuel a new construction boom. This means high demand for skilled construction managers, who oversee everything from scheduling to budgeting and modeling for complex building and renovation projects. Our associate degree program will give you a strong foundation in all aspects of the construction industry—including green building practices—as well as the soft skills needed to communicate effectively with diverse teams. This is an excellent program for students who are driven to lead and manage others. While most employers only hire construction managers with a bachelor’s degree, our 2-year degree program is so strong and well-respected that local employers make an exception for Franklin Cummings Tech graduates.

What You Will Learn

- AutoCAD
- Integrated project delivery methods
- Planning, budgeting, and scheduling systems
- Designing and analyzing construction documents
- Estimating job costs and requirements
- Identifying and explaining sustainability costs and benefits

Career Paths

- Construction Manager
- Superintendent
- Facilities Manager
- Cost Estimator
- Sustainable Construction Manager
- Field Engineer

Job Outlook

Jobs in construction management are expected to grow much faster than the average for all other occupations, especially in Greater Boston, with the industry expected to fill about 34,700 openings each year over the next decade. Construction processes and building technology are becoming more complex, requiring greater oversight and spurring demand for skilled construction managers. (Source: US Bureau of Labor Statistics)

*College credits earned in this program can be applied (or "stacked") toward a related higher degree at Franklin Cummings Tech.

Here at Franklin Cummings Tech, we prepare our students to meet the ever-evolving needs of the future. Our programs offer students the opportunity to learn beyond textbooks, **make the world better for the next generation**, and experience lifelong career success.

Top Reasons to Choose Franklin Cummings Tech

1 Career-Focused

Our programs prepare you for the future. We help you find careers in high-demand fields, in roles where you will be paid well and can support your family. In fact, most of our programs boast **80-90%** job placement rates. Our partnerships with industry leaders and job fairs lead to real-world experience and careers for our graduates.

2 Affordable

Our tuition cost is **less than half** of the average tuition at four-year non-profit colleges or for-profit technical schools in Massachusetts. Here, you can enjoy school and the economic opportunities that come with a degree at a price you can afford. That is why **97% of our students receive financial aid**. Your future matters, especially to us.

3 Flexible

We offer day and evening classes to meet your schedule. Some programs take less than a year to prepare you for **immediate entry** into the workforce. When you're ready to continue your education, you can apply (or "stack") your 1-year certificate credits toward an associate or bachelor's degree. This flexibility helps you find a great job, quickly.

4 Supportive

We offer small classes—with no big lecture halls—allowing you to receive the individualized attention you need to thrive. Success coaches provide you personalized support every step of the way, which is why most Franklin Cummings students finish on time.

We are an Affirmative Action/Equal Opportunity institution that does not discriminate on the basis of age, race, religion, color, creed, national or ethnic origin, sex, sexual orientation, handicap, or disability in its education programs, employment, or in admissions to, access to, or treatment in its programs or activities.
